• Aramaic project 46 I came across this video by accident the best accident I have ever had the interview is so informative I was always looking for a video that would explain in English why Father Joseph wanted to save the Aramaic language and this video does a great job of that the interview was very very enlightening I love this the singing was great also I hope this video does a lot of good stuff for his project Thank you - **Nuala Joyce** -January 2022   • Congratulations Rev. Fr.Plackal about the research you are doing on Aramaic language and the relation about it to the St.Thomas Syro Malabar church and its traditions in Kerala way back. I invite the young generation in Catholic Church to view this video and that will help them to search about our golden treasure. -**Edison Abraham** -2016   • Awsome.... Thank you Dr. Palackal for all your efforts to preserve this holy tradition of Syro Malabar Christians. You are doing this for us and next generations. You may not be rewarded for this in this world but Almighty will keep you close to his heart when you sing Kandhisaa Alaaha with the Angels! Good job. - **Kurian Chandy** - 2016
